## Access and Affordability Survey – 2025

We asked advocates for their insights and perspectives on how the cost of managing diabetes and preventing obesity has impacted their daily lives, as well as the role that health insurance and access to care play in their health journeys. These responses play an important role in improving and shaping our advocacy programs.

### OREGON SURVEY RESULTS

#### HEALTH STATUS

47%

Households living with both **diabetes** and **excess weight**. Both conditions greatly increase the potential for complications such as heart disease, eye and foot damage and others.

#### HEALTH INSURANCE STATUS

50%

Households are enrolled in **Medicare**.

28%

Households have **employer-sponsored** insurance.

39%

Households have participated in **assistance programs**.

#### OBESITY COVERAGE

A majority of respondents **support insurance coverage for obesity** through medications, lifestyle change programs, surgery and other treatments.

81%

**Agree** lifestyle change programs should be covered by insurance

81%

Support **coverage** of obesity medications

#### MOST DESIRED CHANGE IN INSURANCE BENEFITS TO MANAGE CONDITIONS

56%

Want **diabetes education** as added coverage to insurance

56%

Want added **dental** coverage

44%

Want added coverage for **obesity medications**

#### REPORTED BARRIERS TO STAYING HEALTHY

#1

**Medications** were rated as the top medical cost.

High cost of **healthcare** is the primary barrier to staying healthy.

**Nearly 60% of households spend over \$200/month** on diabetes care

29%

**Rationed, delayed, or skipped insulin or treatment** due to cost in the last year, often to be able to afford other expenses like food, rent or gas.
